

CONNECT THE WEB SALESFORCE

Create smarter forms for Web-to-Lead, Web-to-Case, Stay-in-Touch forms, online applications, donation forms, data entry, and more.

With FormAssembly, you can:

- ✓ Create and update **multiple standard & custom** Salesforce objects
- ✓ Create and update multiple Salesforce Marketing Cloud **data extensions & subscribers**
- ✓ Upload attachments to **any** Salesforce object and Chatter
- ✓ Use conditional **logic & branching** to create or update the right records
- ✓ **Prefill** the form with data from Salesforce & Salesforce Marketing Cloud
- ✓ Authenticate **form access via Salesforce login** and Communities

Trusted by 1,000+ Salesforce customers, including:
